appenzeller
kontaktlinsen[®]
passt.

**During the day complete
vision without lenses/glasses.**

Thanks to i-NIGHT contact
lenses, which you are wearing
during the night while sleeping.

Certificate of visual correction

Name/First name

Street

ZIP/City

Country

Date of birth

Driver's license no.

The person listed on the left wears individually prescribed orthokeratology contact lenses during the night. They change the cornea in a medically recognized way, so that no further corrective devices have to be worn during the day.

Achieved visual acuity (even in the evening): right left

Obligatory, regular follow-up checks every month.

Last follow-up check

The optician (stamp/signature)

passt.
